

Rocky Mountain Bicycle

MISSION STATEMENT

We help improve lives through bicycling. We use bike riding as a means to empower youth, encourage independence, and build a healthier and stronger Colorado community.

ORGANIZATIONAL HISTORY

Population Served

We serve youth from all walks of life from the ages of 6-18 who are underprivileged and underserved, in the greater Denver, Colorado region. We have taught over 35,000 kids to safely ride bikes and have engaged their parents on how to further foster those skills.

Key Activities

For more than 15 years, we have used education and mentorship to encourage healthy living through bicycle riding. Our youth mentorship program pairs high school students throughout the Denver metro and beyond with young children to provide guidance, friendship, and leadership skills.

Major Accomplishments

Our annual ride-a-thon has raised over \$100,000 in cash donations, used to purchase bicycle equipment and safety gear.

PROJECT/PROGRAM IDEA(S)

- Make a positive impact on the lives of foster children by engaging them in biking and mentoring activities
- Involve specific collaborators to identify participants who can benefit from the program
- Partner with a local history museum by sharing the bikes for their annual family bike ride fundraising event
